Learning about Analytics, SAS Programming and JMP

SAS Software

https://www.sas.com/en_us/software/university-edition.html

1. Choose "Get New Software"
2. Choose "Windows"
3. Follow instructions – you will be given a choice between Virtual Box and VMware – choose Virtual Box (I think it works better)

SAS Studio Tutorials

Documentation

Getting Started with SAS

https://www.sas.com/en_us/sas-starter-kit.html

Note: "Key Resources" identifies books, training, webinars, etc.

JMP Software

Hundreds of universities license JMP. Check with your software license administrator on campus to see if the Academic Suite site license of JMP is available, most universities do.

JMP is available (for free) with the purchase of some textbooks:
https://www.jmp.com/en_us/academic/jmp-student-edition.html

The single-user six- or 12-month license is ideal for students who need their own copy for a course. https://onthehub.com/jmp/

JMP Tutorials

Lots of resources at www.jmp.com (find "Learn JMP" on the page), and in particular check this out…
https://www.jmp.com/en_us/events/getting-started-with-jmp/new-user-welcome-kit.html
